

ECO FESTIVAL PRIMOŠTEN 2026

**FRIENDS, JOIN US AT THE
FESTIVAL WHERE WE HELP
PRESERVE THE SEA
WHICH WE
LOVE**

When: 06 & 07.06.2026

1. Seabed Cleanup Action:

The goal of the seabed cleanup action is to gather as many divers as possible and, with their help, remove a large amount of waste located in the Primošten underwater environment.

2. The Importance of a "Healthy Sea":

This open workshop is for all ages, organized in cooperation with Primošten Elementary School. A lecturer from the oceanographic association SUNCE will give a presentation on the impact of throwing waste into the sea.

3. Posidonia – Lungs of the Adriatic:

Film projection and lecture on the influence of Posidonia – SUNCE Association.

4. SDI/TDI Workshop

An advanced diving federation that combines recreational, technical, rescue, and freediving. Workshop theme: "How to provide courses for Eco actions and cleanups of fishing equipment."

5. Lost Nets and Traps:

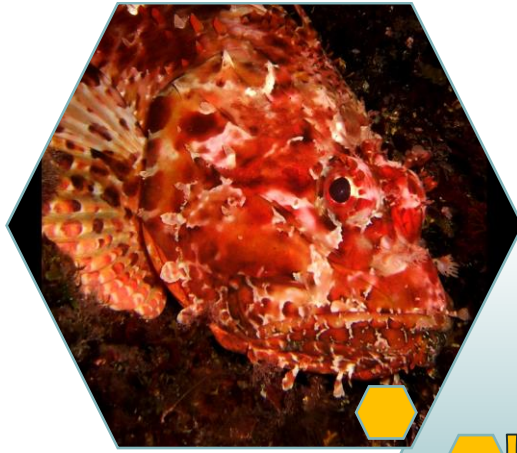

- A joint workshop and cooperation between the local fishing club, professional fishermen, Pongo Diving Center, and Ghost Net organizations.
- Topics:
 - Locating and removing lost nets and traps
 - Protected zones for fish stock recovery.

6. DIVING EQUIPMENT– TRY OUT

You have the opportunity to view and immediately try out some of the best diving equipment from Mares and Techline.
